IRONMAN™ BY OHIO GEAR

Gear Reducers Built For Industrial Use

LEESON IRONMAN™ BY OHIO GEAR worm gear reducers have all the high-end, industrial-duty features you could ever want—all provided as standard at no extra cost! Here are a few of the features:

- Viton® double-lip seals on micro-finished surfaces.
- High-temperature synthetic lubricant.
- Gasket-free "O" ring construction on bearing caps.
- High helix angle worms for efficiency and long-life.
- Oversize, positively retained high-speed bearings for frequent start/stops.
- Conservatively rated output bearing for overhung load capacity.

With all-angle mounting provisions, a full complement of accessory bases and flanges, epoxy-coated washdown-duty versions, and dimensions directly interchangeable with other major cast iron reducer brands... IRONMAN™ reducers offer the ultimate in application flexibility.

Combine with any of LEESON's hundreds of in-stock NEMA C face motors, and a performance-matched Gear+Motor™ package up to 20 HP is created instantly.

To discuss your application and receive more information on LEESON's range of motor, gearmotor and drives products, please call 262/377-8810, or check our web site for the location of your nearest LEESON District Office.
