

F70A-WS series

- Fiber optic sensor for water detection
- Suitable for the liquid detection and a liquid in an intravenous drip pack.
- Available for through-beam or reflective fiber units.

SPECIFICATION

Power supply	DC12~24V
Detecting distance	Through-beam : 600mm (with lens) / Reflective : 7mm
Output	NPN open collector
Detecting object	Liquid or opaque object
Recommendable fiber units	Through-beam type: GT505J, GT510J / Reflective type: GX505J, GX510J

DIMENSIONS
